

## NEONATES & PAEDIATRICS

Free elearning courses for healthcare professionals who care for neonatal and/or paediatric patients.

### Aims

These courses will help you understand and apply patient blood management strategies and appropriate clinical transfusion practice in the care of neonates, infants, children and adolescents.

### Assessment & CPD

Includes online assessment, and a certificate for continuing professional development (CPD) points.

### Content

Course content is based on the national *Patient Blood Management Guidelines: Module 6 Neonatal and Paediatrics*. All courses have been developed by a multi-disciplinary group of expert clinicians, and include case studies and interactive tools.

The courses consist of an introduction to patient blood management in the neonatal and paediatric setting, and a series of short case studies in different clinical scenarios.
