

CRITICAL BLEEDING

Free elearning course for healthcare professionals involved in management of patients with critical bleeding.

Aims

This course will help you effectively manage patients with, or at risk of, critical bleeding and massive transfusion, in order to ensure the best outcome.

Assessment & CPD

Includes online assessment, and a certificate for continuing professional development (CPD) points.

Content

Course content is based on the national *Patient Blood Management Guidelines: Module 1 Critical Bleeding/Massive Transfusion* and current evidence. This course has been developed by a multi-disciplinary group of expert clinicians, and includes case studies and interactive tools.

Includes the clinical consequences of critical bleeding, early recognition, bleeding control, fluid resuscitation, pharmacotherapy, and the use of a massive transfusion protocol (MTP).
