

MEDICAL & SPECIALTIES

Free elearning course for healthcare professionals – primarily nurses and doctors – caring for patients with medical conditions.

Aims

This course will help you understand and apply blood management strategies in the care of your patients with various medical conditions.

Assessment & CPD

Includes online assessment, and a certificate for continuing professional development (CPD) points.

Content

Course content is based on the national *Patient Blood Management Guidelines: Module 3 Medical*. This course has been developed by a multi-disciplinary group of clinicians.

It is recommended that the medical introduction course be completed prior to accessing any of the five specialty courses:

- Cancer
- Cardiac
- Chronic kidney disease
- Chronic transfusion
- Gastrointestinal
