

# PATIENT BLOOD MANAGEMENT ESSENTIALS

**Free elearning course for healthcare professionals working with medical, surgical, critical care, obstetric and paediatric patients, and will provide an overview of PBM for executives and managers.**

## **Aims**

This course provides an overview of the principles of Patient Blood Management (PBM), why it is important and how to implement practice changes.

## **Assessment & CPD**

Includes online assessment, and a certificate for continuing professional development (CPD) points.

## **Content**

Course content has been developed with the clinical input and expertise of a multi-disciplinary group of clinicians from haematology, surgery, anaesthesia, critical care, transfusion medicine and education.

It is recommended that this course be undertaken prior to completing the specialty-specific PBM courses.
