

# CRITICAL BLEEDING: ESSENTIALS

**Free eLearning course for healthcare professionals involved in the management of adults with critical bleeding.**

## Aims

The aim of this course is to increase the learner's knowledge and understanding of the principles of management of an adult with critical bleeding. The course is intended as an introduction to critical bleeding.

## Assessment & CPD

Includes online assessment, and a certificate for continuing professional development (CPD) points.

## Content

Course content is based on the Patient blood management guideline for adults with critical bleeding. This course has been developed in collaboration with leading experts in Australia.

The content includes the definitions and causes of a critical bleed, recognition of critical bleeding, activation and application of the major haemorrhage protocol and management of a critical bleed.

The first in a suite of six courses on critical bleeding that are under development to enhance your learning.

- Critical Bleeding: Essentials (this course)
- Critical Bleeding: Pathophysiology (Coming Soon)
- Recognising Critical Bleeding (Coming Soon)
- Critical Bleeding: Major Haemorrhage Protocol (Coming Soon)
- Critical Bleeding: Emergency Use of Group O Red Blood Cells (Coming Soon)
- Managing Critical Bleeding (Coming Soon)
